

# WAQAS RAZA

## Software Developer (Web)

0470416718 | wqsrza07@gmail.com | <https://wqsrzz.netlify.app/>

## PROFILE

I'm a Full-Stack Software Engineer with experience in React, Next.js, and building clean, reliable applications. Alongside my tech background, I've also worked in warehouses where I handled picking, packing, and loading trucks. I'm a quick learner, adaptable, and comfortable working in both fast-paced tech environments and hands-on physical roles.

## EXPERIENCE

### FRONTEND DEVELOPER

#### Saynt Ai, Karachi, Pakistan

July 2025 - Present

- Designed and developed responsive, user-friendly websites tailored to client needs
- Integrated third party APIs to enhance website functionality and performance
- Collaborated with team members to deliver high-quality, end-to-end solutions
- Maintained and updated websites to ensure optimal performance and security
- Tested and debugged web applications to deliver seamless user experiences
- Applied best practices in code structure, usability, and maintainability
- Assisted clients in understanding technical requirements and project progress

## PROJECTS

<https://wqsrzaaaa.github.io/NeedleKnot/>
